Objective

Skilled full-stack developer with over 5 years of experience building reliable web and mobile apps using modern tools like React, React Native, Next.js, Flask, and Nest.js. Looking to join a company where I can use my technical skills and problem-solving abilities to help create useful and high-quality digital products.

Experience

- 2022 present
Team Lead (Fullstack Web Developer)
TheRunOfShowApp
- 2021 - 2022
Mobile Developer
Retrocube
- 2020 - 2021
Mobile Developer
SkyElectric

Education

- 2015 - 2019 - Karachi
Indus University
Bachelor of Science In Software Engineering
I completed my Bachelor's degree in Software Engineering from Indus University, Karachi. During my studies, I gained a solid foundation in programming, software design, and modern development practices.
- 2013 - 2015 - Karachi
Pakistan Shipowners College
FSc
I completed my F.Sc (Pre-Engineering) from Pakistan Shipowners College, Karachi. This helped me build a strong base in mathematics and analytical thinking, which supports my problem-solving in software development.

Hello

I'm a passionate full-stack developer with over 5 years of experience building both web and mobile applications. I specialize in frontend technologies like React, React Native, Remix.js and Next.js, and I'm equally skilled with backend tools such as Node.js, Nest.js, Python Flask and Java Spring boot. I enjoy turning complex problems into simple, efficient solutions and creating user-friendly, scalable products.

Throughout my career, I've worked on a variety of projects—from small business websites to fully featured platforms. I take pride in writing clean, maintainable code and always stay curious to learn and adapt to new technologies.

I'm currently looking for an opportunity where I can contribute my skills to a team that values quality, collaboration, and innovation. My goal is to build products that not only work well but also make a positive impact on people's lives.

Sincerely yours

Shakeel
